

# TRK-3 OMNIA

Auto Kerato-Refracto Tonometer

A Simple Integrated 4-in-1 Pretest Solution

**TOPCON** Healthcare

# OMNIA

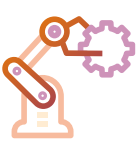

Consolidate objective refraction, keratometry, tonometry, and pachymetry into one simple and easy-to-use device, making diagnostics faster and more efficient.

## OVERVIEW

**4-in-1**  
Maximized Workflow Efficiency

**Fully Automated**  
Reduced Training Time

**Rotary Prism Technology**  
Stable Measurements

**Compact Design**  
Space Optimization

**Multiple Data Connectivity**  
Seamless EMR Integration

## FEATURES

### Faster, More Comfortable Exams

Experience quicker pretesting with OMNIA's one-touch user interface and air puff technology.

### Optimize Your Clinical Workflow

Gain unmatched flexibility with one-touch, fully automated user interface and 360° touch screen rotation. Optimize space, enhance efficiency, reduce training time, and ensure easy data capture, even for new users.

### NEW Super Luminescent Diode (SLD)<sup>1</sup>

OMNIA uses a brighter light source to deliver clearer and higher-quality imaging than a standard LED, improving the success rate of measurements even in challenging conditions caused by media opacities.

<sup>1</sup> Available in REF/KRT measurements mode

### Patented Rotary Prism Technology

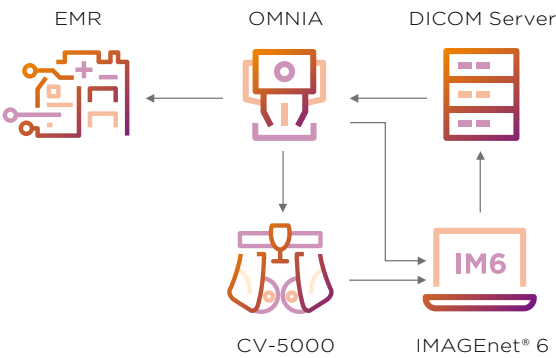

With Topcon's Rotary Prism Technology, OMNIA provides stable measurements. The unique, eccentric rotation of the measurement ring is designed to reduce any artifact from the fundus.

### Multiple Connectivity Options

OMNIA can send examination data to CV-5000 and IMAGeNet® 6 via a shared folder. Connecting to a DICOM server makes it possible to receive a DICOM worklist, making OMNIA compatible with various network environments.

Conventional model      OMNIA

SPECIFICATIONS

REF measurement

Measurement range	<b>Spherical refractive power:</b> -25D to +22D (display value resolution: 0.12D or 0.25D) <b>Astigmatic refractive power:</b> OD to ±10D (display value resolution: 0.12D or 0.25D) <b>Direction of astigmatic axis:</b> 0° to 180° (display value resolution : 1° or 5°) (where spherical refractive power + astigmatic refractive power ≤ +22D, or spherical refractive power + astigmatic refractive power ≥ -25D) The dioptric powers are indicated with reference wavelength λd = 587.56nm.
Measurable minimum pupil diameter	φ2.0mm
PD measuring range	20mm to 85mm (display value resolution: 1mm)

KRT measurement

Measuring range	<b>Corneal curvature radius:</b> 5.00mm to 10.00mm (display value resolution: 0.01mm) <b>Corneal refractive power:</b> 67.50D to 33.75D (display value resolution: 0.12D or 0.25D) (where corneal refractive power = 1.3375 ) <b>Direction of corneal principal meridian:</b> 0° to 180° (display value resolution: 1° or 5°)
-----------------	--

Corneal diameter measurement

Measuring range	2.00mm to 14.00 mm (display value resolution: 0.25mm)
-----------------	---

Intraocular pressure measurement

Measuring range	7mmHg to 60mmHg (display value resolution: 1mmHg) (average value resolution: 1mmHg or 0.1mmHg)
Measuring mode	7mmHg to 30mmHg or 30mmHg to 60mmHg (selectable range)

Corneal thickness measurement

Measuring range	0.400mm to 0.730mm (display value resolution: 0.001mm)
-----------------	--

Other specifications

Electric rating	<b>Source voltage:</b> 100-240V AC <b>Frequency:</b> 50-60Hz <b>Power input:</b> 80VA
Dimensions and weight	<b>Dimensions :</b> 13-16.6in (332-422mm) (W) x 22.4-25.9in (569-658mm) (D) x 20-29.9in (504-760mm) (H) <b>Weight :</b> 51lb (23.2kg)

Control screen images

R/K Mode (REF/KRT measurements)

T/P mode (TONO/PACHY measurements)
